

Luminary Instructions

- ✧ Open the paper bag and fold down the top about an inch to keep the bag from flapping.
- ✧ Pour approximately **1½ cups**, or about **1½ inches**, of sand (or kitty litter) into the bag to keep it from tipping over. Public salty sand is always available at the end of Dump Rd.
- ✧ Place the candle in the burn extender cup and into the center of the sand in the bag. Be sure to raise the wick on each candle prior to lighting.
- ✧ Place luminaries 4-6 feet apart along roads, driveways, walkways, stone walls, landscape features, and especially along the streets of Santa's famous fire truck ride on Christmas Eve!
- ✧ The candles will burn for about 8-10 hours.
- ✧ Candles should be lit between 2-4pm on December 24th. The Rain Date is December 31st at the same time. In case of inclement weather, we will post the rain date delay on the church website at chesternhchurch.org.
- ✧ If you have any questions, please contact the church office at 887-4799 or email chesterchurchoffice@gsinet.net.
- ✧ This event benefits the Meetinghouse Preservation Project of Chester Congregational Baptist Church.
